ABOUT TIMESHEET DAILY COMMENTS

WHAT IS TIMESHEET DAILY COMMENTS?

Timesheet Daily comments gives users the much-needed functionality to add a comment to their timesheet. This provides a more specific and detailed invoicing and a better overview of the time spent on a given day. The Timesheet Daily Comments App provides increased accountability of time registration across projects. With the App, users are able to enter comments on a daily basis directly into the timesheet grid. It is possible to modify and/or delete as well as entering comments on entries without actuals.

With the App, all comments will be available for reporting purposes either by Excel Services, SQL Reporting Services or other tools that you feel comfortable working with.

INCREASE YOUR TIMESHEET TRANSPARANCY

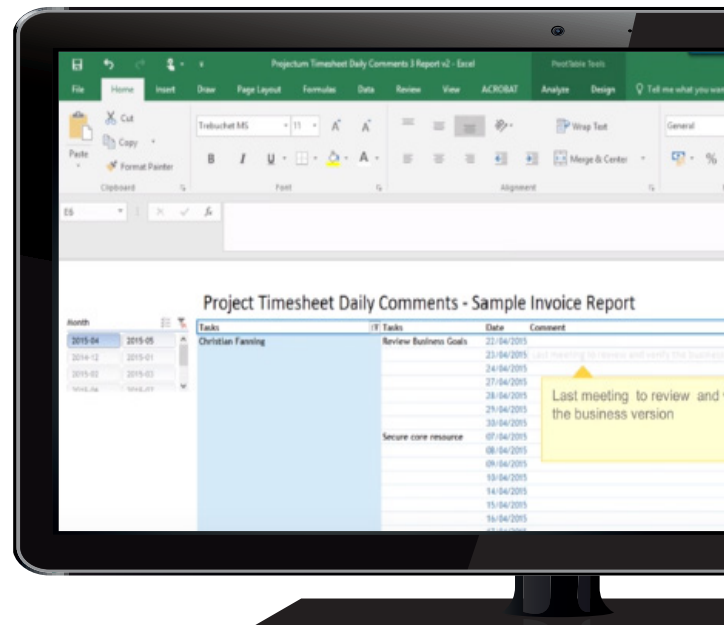

ACCURATE TIMESHEETING
